- **GRADES' RECONFIGURATION**

Please join the board's committee, district administrators, and curriculum teachers at a special meeting to hear about upcoming plans to address current issues the district is facing. At this meeting, information will be shared regarding our current conditions, what the district is planning to do to improve conditions, and the rationale behind the plans. There will be time for questions afterwards.

A link to watch the meeting will be available on Thursday for those unable to attend in-person. As a reminder, masks are required to be worn inside school buildings.
